

Pls add this email to the file as an Objection

Thanks
Amy

Dear Amy

I have now sent you e mails in April, May, June and July which ask relevant questions, raise legitimate concerns and make representations in respect of this application with my most recent e mails in July highlighting deficiencies, errors and misinformation relating to the recording of representations and consultee replies in the published Committee report and inviting you and your managers to reconsider the content and your recommendations in that report in the light of the correct information and facts and my representations .

In accordance with the adopted practice of your managers my e mails go unanswered by Officers and are unreported to members in your report to date and I have tried ringing you but telephones are always on ansaphone. Once again in accordance with adopted practice I presume that you will record all my e mails and representations in any Update report you choose to publish alongside your original report to members so that the DCC may properly consider same and my written submission to the Committee can then refer to same so I am not forced to waste the 3 minutes allotted and the time of the DCC having to raise these matters again.

As I have made clear this is not how I wished to proceed as I had hoped that Officers would take the opportunity I provided so as to engage constructively with me as Pagham Parish Council's retained Planning Consultant.

As your Managers have previously been advised ADC has a statutory obligation to notify Pagham Parish Council in a prescribed manner and a duty to consider and respond to representations resulting from that notification in a prescribed manner also (Schedule 1, paragraph 8, of the Town and Country Planning Act 1990 and article 25 and 25A of the Development Management Procedure Order) and I have seen no evidence that ADC has met these obligations and duties in the prescribed manner to date and as their representative on such matters I am also being left with a feeling of being treated with disdain by ADC.

However. I am a big boy now and have learned to acquire thick skin so my feelings are of little note but I had hoped that my efforts might help us to reach a better mutual understanding of the issues and how the DCC may be better placed to make a lawful, more appropriate (than that recommended) and ultimately more defensible decision in this case but we are where we are and I have been provided with no evidence that Officers intend to heed or respond to my representations so please place this e mail on the file alongside all the others and include it and those others in any update report to the DCC on 29 July.

Thank you
