Dear Richard,

Please accept my apologies for the time this has taken to resolve. It is quite complex due to the low lying nature of the site, the roof and hardstanding areas and the need to retain and manage as much of the water as possible on site for irrigation purposes. Without that latter objective it would be relatively easy!

That said there was a meeting today and a solution has been agreed which meets both the technical and practical requirements of all parties.

We would therefore like an EoT until the 16th Feb and will get this revised detail to you within the next week or so.

Regards

Dear Richard,

I hope this email finds you well.

Any update on the drainage details for this DOC? It went out of time on 5th Jan 2018. I will have to recommend refusal of the application by 19th January 2018 if no details and an extension of time are forthcoming by 1715hrs tomorrow (12th January 2018).

Regards,
