Hi Nicola,

Can these be scanned as supplementary plans and details please?

Please note, there are a lot of files on here and I don't know if this goes over the 20mb limit.

Regards,

Richard

Dear Richard,

I am very sorry that this has taken so long to conclude but I am now in receipt of all the information required to discharge Condition 15. No doubt you are aware that there have been ongoing discussions between Paul Cann and our engineer and therefore things have been progressing behind the scenes.

Notwithstanding the above a further percolation test is being done now and the results will be ready next week and sent directly to Paul Cann. Given the time taken thus far I would rather not wait for these which I gather are likely to endorse and expected outcome.

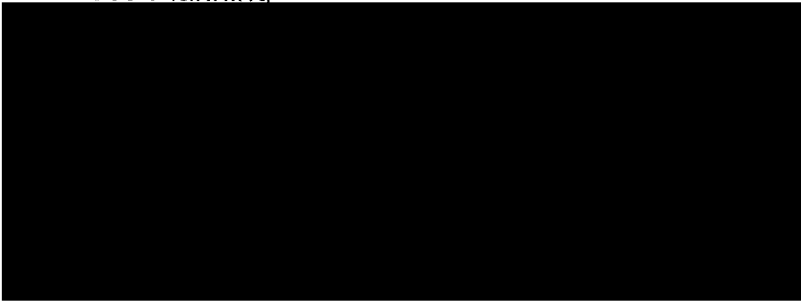

I understand that your e-mail size limit is 20mb so I will send the information in a series of e-mail and identify which is the last of the series.

many thanks for your patience on this matter

Regards
