CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

Good afternoon Simon,

Following a discussion with my team, I can inform you that we are not of the opinion that a full assessment against waste safeguarding policies will be necessary here given the site already shares infrastructure that is of a similar use to the proposal, and the access to the AD plat appears to be maintained/improved.

Therefore, we would consider that the proposal broadly complies with Policy W2 of the WLP in that the proposal would not likely prevent or prejudice the established waste infrastructure.

If you have any questions or would like to discuss further then please do not hesitate to contact me.

Kind regards,

Edward Anderson

Hi Simon,

Thanks for sending this across.

I would say that, while I can appreciate that the operator wants the two businesses to run in tandem without prejudice to each other, the statement is quite vague and doesn't attempt to assess the proposal against the relevant policies of WLP.

I will bring this up at my team meeting tomorrow and see what my principal's take on the matter is; it may be that the submitted statement is sufficient to alleviate any concerns we may have, but I expect we will still require a formal assessment of the site against policies in the WLP to ensure the existing waste infrastructure is safeguarded accordingly.

Thanks,

Edward Anderson

Dear Edward,

In your recent response you asked for a statement that demonstrates that the proposed development would not prevent or prejudice the operation of this waste infrastructure. Please see attached email. Is this sufficient or do you require something more formal? Please let me know.

Kind Regards

Simon J Davis MRTPI
