FAO: Mrs S Davis

Dear Mr Davis,

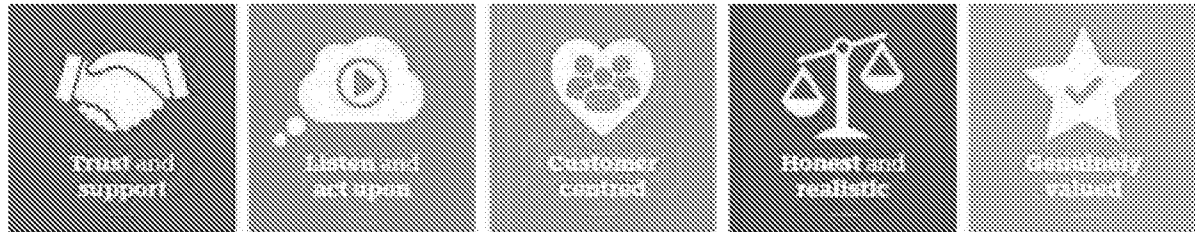

Having viewed the plans for planning application P/117/21/PL, the nearest fire hydrant to the new packhouse is 250 metres away, over 160 metres more than the required 90 metres. Should an alternative supply of water for firefighting be considered it will need to conform with the details identified in Approved Document – B (AD-B) Volume 1 2019 edition: B5 section 14. West Sussex Fire & Rescue Service will also need to be made aware so the alternative water supply can be checked for access and suitability, its location marked up on our operational mapping system and recorded as an emergency water supply.

Regards

Ian Stocks
