You don't often get email from [REDACTED] [Learn why this is important](#)

Hi Ella

Thank you for your letter requesting further information for which I was rather surprised. This application is a resubmission of a previous application with different manufacturer's details using the same information.

To clarify this application is for the replacement of windows only, all other work shown on the drawings has received consent under previous listed and planning applications and should not be considered, only the content of the application title – Windows.

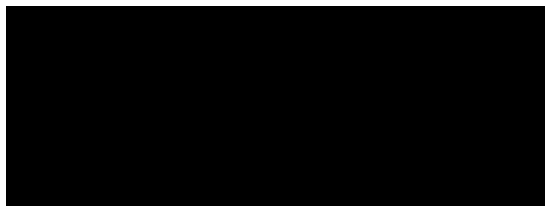

1. Balcony – previously consented works
2. Existing floor plan – not required no change to window openings being requested and proposed plan C-02A given to reference locations only.
3. Roofing is not part of this application. Have added drawing C-03A proposed elevations to show locations with proposed windows installed.
4. Internal changes not part of this application.
5. W10 is an existing door being blocked up behind, previously consented.
6. No inconsistency some windows not being replaced. These are the only ones shown.
7. Added north point and scale bar to C-02A, and scale bar to C03A, elevations already labelled direction.
8. Works described in Design and Heritage statement, just window replacement., no requirement for schedule of works.
9. Method statement is purely ridiculous for taking out and changing previously replaced windows which are screwed in position.

I hope this allows this application to be registered without further delay which will impede works on site which has cost implications. These details have been provisionally approved by planning and conservation officer at Arun and this regularising that agreement.

Regards

Simon
