Hi Harry

Please see updated TTP. I think there was a colouring error which has now been rectified.

South Downs Ecology have also added a note about the trees to the north, which don't need further protection.

We trust that this covers your query.

Kind regards

Tania

Hi Tania,

Quick query in relation to the submitted Tree Protection Plan, could you confirm why it appears that the tree protection fencing has seen a substantial reduction around the perimeter of the site since the previous submission? The proposal does not indicate any significant removals of planting at the perimeter but has omitted protection fencing. Was this intended?

Kind regards,
