

BIO-DIVERSITY STATEMENT FOR 108, PAGHAM ROAD, PAGHAM. PO21 4NN.

Introduction:-

The proposal is for a single storey side and rear extensions including the removal of existing detached garage.

The property is a semi-detached three-bedroom property positioned in the central urban area of Pagham with the majority of the front garden laid to grass and a rear garden comprising entirely of grass with small patio area.

A walkover survey of the garden and discussions with the owners have appraised:-

Bats:-	None. Single storey extensions will have no affect on the roosting of any passing bats.
Barn Owls:-	None.
Badgers:-	None including no foraging pathways.
Great Crested Newts:-	None.
Dormice:-	None.
Hedgehogs:-	None sighted.
Reptiles:-	None.

Actions Implemented:-

Bat boxes:-	None
Rainwater:-	No water butt in use.
Insect House:-	None
Bird Nesting Boxes:-	None
Hedgehog Box:-	None
Permeable Surfaces:-	Majority of front garden and entire rear garden laid to lawn to deal with heavy rainfall.
Compost Heap:-	No
Pond:-	No
Berry Producing Shrubs:-	None.
Nectar Rich Flowers:-	None
Trees:-	Yes

Proposed Actions:-

Installation of birdbox

Conclusion:-

The property reaches a low standard of bio-diversity with owners unaware of the benefits.

The inclusion of the proposed actions provide a bio-diversity net gain as required.
