For the attention of Jessica Riches

Dear Jessica

Reference P/13/24/DOC: Approval of details reserved by condition imposed under P/140/16/OUT relating to condition 30-management and maintenance for adjacent Pagham Harbour SPA Enhancement land.

I refer to my previous letter of 19 March 2024 and to the revised Brent Geese mitigation plan on your website. The Sussex Ornithological Society (SOS) considers that the ADC Committee should examine this only after your own assessment and that of Natural England have been published, with reasonable time thereafter for other stakeholders to comment. That clearly cannot happen if the Committee meeting considers the revised plan on 13 November as I understand is currently intended. The Society therefore asks that Committee discussion is rescheduled to allow sufficient time for all stakeholders, including ourselves, to engage effectively.

Your sincerely

Mark
