Dear Sir/Madam

I am writing to you yet again regarding my hugely worrying plans you have to build on flood plains South of Summer Lane.

For starters our local schools, GP surgeries and our General Hospital St.Richard's are all bursting beyond capacity. What are the thoughts behind these recommendations?

Summer Lane is on a flood plain, our roads must be in the worst condition in our Country, every new home no doubt will each have 2 to 3 cars parked outside and as things stand the traffic problems on a daily commute to Chichester is nothing but disastrous.

It is total madness to put more bricks and mortar in Pagham, we are sinking as I am writing this. I beg you to show some common sense and ditch the dollar signs!!!

Think more about Ford airfield, Tangmere airfield!!

The whole issue about building more in Pagham is utter irresponsibility and unethical to 10th degree, don't point us worried locals as selfish or imperious for our good self!

I truly hope and trust you are listening to the concerns of us locals who respect and love where we live, and, what's wrong with that!!

Yours Faithfully

Lisbeth K Gjetnes
