Subject: Re: ALL housing developments in the Pagham area

My husband and I are both wholly against any future developments for the following reasons: roads already insufficient for rush hour traffic, doctors' surgeries full up, strain on schools. We understand that extra house building could cause extra surface run-off which would add to the possibility of local flooding. We would also be very distressed if the wild life, north of Pagham Harbour, was disturbed in any way.

Summertimes are already packed with holiday makers. We don't need any more houses built. Paul and Jacqueline Harrington - PO21 4BH
