RECEIVED

Dear Claire Potts,

REF to p140 16 out pagham road ,

As a long time resident of Pagham I find it inconceivable that this planning application ever got off the ground due to its only one road in and out making it a dead end , This road is often flooded when it rains , its also very busy with numerous traffic including tractors and, lorries which seem to use this road to supply food to the three small local shops , tractors day and night in the summer which is what you expect living in the country as it has farmland all round . We already have a small estate do we really need more houses , more people and more traffic just to please the governments directive quota ? I don't think so this is only one reason we don't need more houses on a flood plain . The Community it self has increased due to the new houses that have already been built , we now are entering brexit and will need all the farmland to support this country 's present need , now we are leaving the EU , its very sad to see our green and pleasant land disappearing under the influx of houses .

Yours sincerely
