Assistant Director of Planning
Arun DC

Dear Sir,

re P1340/16/OUT (Sefton Rd)
P140/16/OUT (Pagh-an Rd)
P16/17/OUT (Hook Lane)

I wish to register my strong opposition to these developments.

Apart from being grossly disproportionate to local housing needs they are reach too large and too destructive of our local environment. They will aggravate our already present risk of flooding, add to the infrastructural problems that we already have and solve a housing problem that does not exist. The ruin of good arable land now with affordable housing will lead to slums for the next generation in only a few years time.

The plans do not fit any local or national purpose that has been properly thought out. The interests of such a large number of new residents will not be met as they commute to work and lose the benefits of a rural and maritime setting and we will all suffer as a result.

Yours faithfully

John Edwards
