It is with dismay that I read any application has been put in for 100's of new homes to be built on the pagham Road. There isn't the room for all these houses as the traffic is terrible on the pagham Road and surrounding area. There are lorries going up and down and its often chaotic and it takes ages for people trying to get to work along the pagham Road. It floods along that area and with more homes that will only get worst. What about the wildlife etc?

It can take two or three weeks to get a Doctors appointment. The infrastructure round this area could not cope.

please do not destroy our way of life on the edge of a lovely village.
