

10 Pyros Lane

Aldwick

Bognor Regis

West Sussex

PO214JU.

23/2/17

Dear Sirs

Applications - P/134/16/ OUT (Sefton Road)
P/140/16/ OUT (Pagham Road)

I wish to register my objection to the development of houses planned under the above applications.

As a local resident I use the B2166 every day to go to work and also at weekends as it's my main route to Chichester. This road is over-burdened already with the amount of existing traffic that uses it and it is made more dangerous by the day because of this volume coupled with the number of huge lorries that use it to get to the growers here.

Unless the road infrastructure were to be improved along its whole length from Pagham to Chichester this development should not go ahead as it will add significantly to the danger and delays that already build up because of the volume. Also there is no designated cycle path along the road.

Yours faithfully
