Proposed Housing Development Pagham and Aldwick

I wish to make objection to the proposed housing development at the above sites.

I am a long term resident in Sefter Road overlooking Hook Lane and I feel any development would be of great disadvantage to the area, Already a very busy main road, Sefter Road, with the addition of so many new houses this road would become extremely dangerous.

It has been proposed for a school and a community centre on this site and the increased volume of traffic would be a danger to children.

The site under consideration in Hook Lane is valuable agricultural land which should be conserved, bearing in mind that already there are other proposed building sites in this area.

This proposed development would be a formidable drain on local resources already under extreme pressure.

Yours sincerely,
