Hi Please find enclosed a copy of my feelings

re:- P/134/16/OUT SEFTON RD

P/140/16/OUT PAGHAM RD

P/6/17/OUT HOOK LANE

I totally agree with the wording, and my objections to all these sites are in agreement.

I can see the need for small sites 10-15 housing for people.

But one should be brave and ask parliament the reason we have so many people in this country, and be in control of our needs, and balance those needs to what the country can sustain, keeping the boat above the Optimol line at all times. I want to see progress but progress that is right for this country, and all of it.

Historical & increased flood risk, traffic issues on country
roads from this and other proposed/pending
development, loss of amenity and increased HGV
movements. It is noted that the movements during season
down to Church Farm holding visitors (remember this is a
cumulative effect) has increased (farmland, increased
pressure on the local health, schools & hospitals. Damage
to the natural environment - your own experience of the
above. Use watercourse as a keyword wherever possible
