PO213UA

Dear Sir

I am writing to strongly object to the proposed building of 1,000s of Houses in Pagham, Aste P/134/16/out for Septon road, Aste P/140/16 out for Pagham road, Aste P/16/14/out Hook Lane.

It is unsustainable for all the properties to be built due to historical and increased flooding in this area.

There is also the traffic problems which is already a nightmare due to the being one road out of Pagham plus the speeding traffic through Pyltons, it is even worse when Church Farm Caravan site is in season with all of the holiday makers

①

using just one road Pagham comb.

There is also the proposal for
Bosford's parking place to be increased and
that would cause chaos with ~~more~~ more
H.C.V. Vehicles also using the Py Pagham rd
It alone the noise and pollution and
increased vehicle movement through the
village, there is already many car accidents
on this road and it would be unsustainable
for any more vehicles to use this busy
road.

There would be problems with the
loss of grade 2 farmland and increased
surface water run-off and also sewage.

There would be increased pressure
on doctors, dentists, schools and hospitals,
we can't get appointments for the doctors
or dentists now so what chance will we
have with thousands of new residents, there
would be impact on the natural environment.

Many residents such as myself are
Senior Citizens where we enjoy the
peace and quiet, and ~~serenity~~ ^{tranquillity} of Pagham

we all feel safe living in our lovely
hagham, but all this would disappear
for ever if this project is allowed to
go ahead, also where would all the
jobs come from? as there isn't enough
work here now for people that already
live here.

why should we have to suffer
for the incompetence of the government
mistakes over the past years, these houses
should not be allowed to be built,
I hope this problem could be resolved
in our favour.

Yours sincerely
