Application No: P/140/16/OUT

Land South of Summer Lane & West of Pagham Road Pagham

With regard to the planning application above - it looks good on paper.

However - I am very aware of the extreme worry and concern about all the building plans for this and surrounding areas and I still think that far to many properties are being built in such confined space and leading to road congestion / flooding / and all infrastructure especially with sewage - Southern Water are having a problem coping now so what will it be like with all these extra people - poor St Richards has only so many beds in the hospital are the sick and suffering to be abandoned... or do we as a people bring our buckets full of waste to the Arun District Offices who I am sure will be providing waste and sewage disposal!!

This needs to be taken very seriously disease has no respect for anyone...

With regards
