Dear Sir/Madam.

Re the Pasham Rd, development. P/140/16/OUT and the
infill Church Barton House. P/25/17/OUT.

Having lived in Pasham/Aldwick all my life (76yrs)
We do not want more Housing in our Village. We want Land
to continue to be Farmed, more Housing will put a huge
burden on our local roads.

We have geese, Wildlife on the Fields Planned for development.
If we had a lot of Rain, We have Chichesters Water flowing
down into the Pasham Harbour, The Fields in Summer Lane
with extra housing, would Flood. I am very concerned
about the ability of Pasham Waste Water Treatment Works
being able to cope. The New Houses in Summer Lane will
be flooded. The evidence in Summer Lane is the
Fields Flood, I Have Seen it many times.

Why Build on These Fields. (Summer Lane) they join up to
Pasham Nature Reserve. The Threat that would be
caused to Wildlife, both in the Nature Reserve and
the surrounding Fields, must be painfully obvious.
In combination with other factors, such as flooding
the need for agricultural land and adequacy of supporting
infrastructure, it must surely lead to conclusion it
would be foolhardy to advocate these sites as
suitable for Strategic development.
