PLANNING OBJECTION IN RESPECT OF ALL 4
DEVELOPMENTS AT PAGHAM NAMELY

P/140/16/OUT, P/6/17/OUT ,P/134/16/OUT,P/25/17/OUT

SIR,I am writing to object to the proposed new houses
In PAGHAM AND THE IMMEDIATE AREA.

HOW are the sewers going to cope, they are already
struggling to manage now (over 55 cases of RAW
UNTREATED sewerage has been emptied into our rife so far
this year (up to April) which empties via Pagham Harbour
into the sea and beach) not nice, because they couldn't cope
with the volume how on earth can they manage more?

We are not allowed by law to disturb the birds and repair our
beach to prevent being flooded BUT that is what you will be
doing if this MAJOR building goes ahead,

If the proposed housing goes ahead what effect will that
have on the protected wild life that live within the area?

Rare,protected and endangered bats found living in Hook
lane site and all the PROTECTED wildlife in PAGHAM Harbour
and RSPB protected land.

The mainly "B" roads in and around can not accommodate
the extra traffic they are over run and falling to bits as it is,
that is before the upgrading of BARFOOTS which will add

over 40 HGV's a day and the opening of the HUGE school being built further up towards Mundam will make it even harder to get onto the A27.

You cannot get a dentist appointment with less than 6 weeks wait already.

And as for a doctors appointment GIVE UP its not worth the hassle,

The land alongside Pagham road is GRADE ONE farmland which when we leave the EU will be needed to feed ENGLAND..

Bourne leisure who run Church Farm caravan site have said they WILL RELOCATE to Hayling island if building goes ahead as they do not operate in built up areas.

That would be disastrous for the economy of the area and everyone within miles.

I therefore implore you to rethink this plan before you bring about the death of the area for miles around.
