Dear MR EASTON

I Have Been A Resident OF NO. 60 PAGHAM RD, PO214NW FOR 14 YEARS NOW. I AM always looking out of my window at the fields & walking over the Farm track with my children & husband, about 7 times a week.

Yesterday there were 2 ~~deer~~^{deer} across the field and we often see them.

there is a lot of wild life across the road, we have lots of Bats in my garden & across the field when it starts getting dark.

there was always Brent geese in massive flocks ~~for~~ since I moved here, but because of the Bird Sacker's and other measures the Farmer has got rid of them.

2 years ago I had to phone Harbury estate's to take down about a 20ft pole with a sort of kite bird on a long wire, it was flying about in line with my window & distracted my eye line from the television.

Also in my garden & across the field, are lovely field fore birds plus lots of other species, Foxes, Deer etc. the area is outstanding for wild life & beauty. It would be

terrible to remove all the creature's
Habitat. Plus the Native reserve
which I can see from my window will
surely be very much affected.

Yours

60 PAIGHAM RD.

PO21 4NW.
