Dear All

Is it still your intention to issue the decision on this one by close of play today and if not what the revised timescale now is? Also if it is your intention to do so please can you advise whether or not the Decision notice/S106 will be available via your web site tonight.

My client (Pagham Parish Council) and I have an appointment with their Counsel tomorrow morning in London to explore a JR Challenge to any decision issued and I do not wish to waste their time and money and increase potential costs for the public purse due to your ever changing timescales and inefficiency regarding the availability/publication of documentation.

Please advise

Thanks

Paul Collins BA (Hons) DipTP MRTPI
