Dear Sir/Madam,

Ref: **P/140/16/OUT Development South of Summer Lane, Pagham**

I would point out that this development will affect wildlife in ways that may not have been considered. Every year we are called to badgers killed by traffic on the Pagham road leading north to Chichester, so this will get worse

Not only is their loss of habitat, but the extra housing will mean disturbance for Brent geese as there will be a lot more dogs on the footpaths to the west.

On a personal level, the effect on residents of Summer Lane and Pagham, together with a log jam of traffic does not bode well for local people's quality of life.

As it appears this development is now a fait accompli, considerable efforts need to be added to plans to minimise effects of habitat loss and disturbance on wildfowl, together with mitigation measures for badgers on the roads leading to Chichester.

Yours sincerely,

Simon Wild
