Dear Sir/Madam,

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015

Application No: P/149/21/DOC
Site Address: Hook Lane Pagham Road Pagham PO21 3PD
Description of works: Approval of details reserved by condition imposed under P/30/19/OUT relating to conditions 29-clarification as to how existing hedgerows on site will be enhanced for use by bats & 30-Badger survey.

Thank you for your internet representation made on 3rd November 2021 which has been recorded as an objection with the comments as follows:

OWPC41602

Condition 29 of the decision on the outline approval (P/30/19/OUT) requires the below. Clearly the 'bat letter' is not sufficient as it gives no details of buffer strips or hedging to be used.

"Prior to the commencement of development details shall be submitted providing clarification as to how the existing hedgerows on site will be enhanced for use by bats. This shall include details of a buffer strip around the hedgerows measuring 5m in width and details of fencing to be used during construction to ensure that this area is undisturbed. Details shall also be provided of additional planting to infill gaps in the existing hedgerow using native hedge species to improve connectivity. No hedgerow shall be removed or disturbed from hedgerows H1, H2 and H3 and an additional minimum 20 metres of additional hedgerow planting shall be undertaken on site due to the loss of small areas of hedgerow H4 (as identified on Appendix D 6932-E-AD within the Ecological Appraisal - Jan 2017). 'Hop overs' shall be provided adjacent to any hedgerow haps greater than 7m wide to allow continued echolocation across the break.

In respect of condition 30 - I am surprised there have not been any badger setts found. There is currently the carcass of a badger on the side of Pagham Road (in the hedgerow of the field on the other side of the road to the site) so clearly an active badger area.

Your views as made above will be considered before the application is determined.
