Thank you for your internet representation made on 21st December 2021 which has been recorded as an objection with the comments as follows:

OWPC42794

I feel quite upset about this application as I cannot see any mention of the impact that applications to build on this site have already had. We used to have 1000s of Brent Geese regularly using this site which have now been forced elsewhere. I understood that under the previous application P/140/16/OUT it was a requirement that the mitigation sites set up for Brent Geese would be monitored for five years to make sure that they fulfilled the criteria. The mitigation sites have clearly failed as we have geese flying over but none landing due to lack of site lines, flooding and lack of planting. Until a mitigation site has been shown to work any application must be refused, otherwise it is setting a precedence that any future mitigation site could be just a tick box in the application without the need to follow through and actually provide a suitable alternative. Please make sure all the conditions set out by ADC with regard to development of this land are adhered to! I strongly object until such measures are met!

Your views as made above will be considered before the application is determined.

Please be aware that Planning Services operate an 'open file' policy and will publish your comments including your name and address on the website. Please make sure that you have only provided information that you are happy will be published in this way. However, if your representation has been received after the agenda for the meeting has been finalised and the notifications have been generated, you will not receive notification. In this case, you will need to track the progress of the application on the council's website <https://www.arun.gov.uk/planning-application-search>

Any comments that are received after the agenda has been finalised will be separately reported to the members of the Planning Committee.
