OWPC43271

This scheme will affect the area as there is a lack of infrastructure doctors schools and services. This will affect the sewage system which is unable to cope, there is already issues with discharge of raw sewage into the sea and water courses locally which is well documented. The area will not cope with the size of development the local roads will it cope. It is close to an nature reserve and will affect the wildlife . The local area is prone to flooding, recently completed developments have had ongoing issues with flooding. It is noted that SOS have clearly stated that the mitigation for the Brent geese at this site had FAILED. Arun DC against the wishes of the author chose not to put this in the report on the portal though it was sent to Arun in July 2021, this has delayed further investigations by other parties.
