To whom it may concern,

Please confirm receipt of this objection.

I am writing to record my objection to the above planning application. Could you please also apply my objection to P/167/21/RES, P/155/21/RES and P/158/21/RES.

It has become apparent to me that ADC planning dept. are allowing huge numbers of houses to be built in small village areas without due diligence and concern to the lack of infrastructure and services. Not to mention the impact on the sacred wildlife reserve very close by.

I am objecting based on the following:

- We are all aware of the poor and possibly already failing drainage and sewage infrastructure. I don't believe enough is being done to improve the system.
- Potential for flooding – investigations appear insufficient.
- Traffic & pollution – the current one way in and one way out of the village is extremely inadequate for the number of houses being built in the area. There will be a substantial rise in traffic and air pollution due to number of vehicles.
- We do not have sufficient health and social care services in the area and this will be exacerbated.
- It is noted that SOS (Sussex Ornithological Society) have clearly stated that the mitigation for the Brent Geese at this site has FAILED. Arun DC , against the wishes of the author chose NOT to put this report on the portal even though it was sent to ADC in early July 2021, this has delayed further investigations by other parties"

Yours Faithfully,

Fiona Sweeney
