Thank you for your internet representation made on 12th November 2023 which has been recorded as an objection with the comments as follows:

OWPC62983

I wish to express my concerns regarding the proposal P/ 153/21/RES, particularly in relation to its impact on local wildlife and the nature reserve. The planned developments in Pagham already risk significant disruption to the area's natural habitats. The presence of additional infrastructure and increased population of what was a small semi rural village could lead to a decrease in local biodiversity and the deterioration of natural ecosystems. This loss of wildlife and natural spaces is not only a concern for environmental reasons but also for the health and well-being of the community, as these natural areas are vital for mental and physical health. Additionally, the development would also exacerbate existing issues such as flooding and ridiculous road congestion making school runs and commuting extremely difficult and time consuming, further impacting the local community and environment.

Your views as made above will be considered before the application is determined.
