from Mrs Mary Cook, 34A Pagham Road PO21 4NP

P/153/21/RES. Could you please in addition apply my objection against the following planning applications as the objection remains the same on all..P/167/21/RES,P/155/21/RES,and P/158/21/RES.

It would appear we have once again to defend our small village against developers.

The Infrastructure will not sustain any of theses proposed developments.

The Road is not suitable for the marked increase in traffic,neither is the sewage system suitable added to which the land here floods every winter.The land is prime Agricultural land which we need to grow food on in this new Green era.

there also not enough services in the village for the influx of people,ie. doctors surgery ,school ect.

and finally there is a Nature Reserve on the doorstep which will be iretrievably damaged by the increase in footfall .

And No that cannot be fixed we already have an endangered species of bird nesting in the fields on Pagham Road.The bird is the Skylark and this year there have been more than ever(they are ground nesting birds)

.It is noted that SOS(Sussex Ornithological Society)have clearly stated that the mitigation for the Brent Geese at these sites has failed.
