Subject: Objection to P/153/21/Res

CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

To who it may concern,

My name is Peter Batty and I live at 199a pagham rd and I am writing to you concerning my objections to P/ 153 / 21 / RES.

" Could you Please in addition apply my objections against the following planning applications as the objection Remains the same on all

P / 167 / 21 / RES

P / 155 / 21 / RES

P/ 158 / 21 / RES

Based on lack of thought on local infrastructure I.e Traffic, Doctors, Hospitals, Flooding and Sewege.

The amount of traffic using the Pagham rd and Bognor rd is very busy now and will get heavier with even more car as most family's have Two car. The traffic at the beginning and end of the day are extreme with queues the length of each road. And if one is closed a night mare. With no investment in roads and junctions why make people's lives a misery.

At present the Doctors surgerys and Hospitals have long waiting lists so very difficult to get seen. The school's are at Capacity even now so more people more children and where are all the jobs for all these new people, Hello Please wake up.

The other Main Problem with have here now is the Sewege system which can not cope with the amount even now, as it is known that raw Sewege to pumped into the Rife even now. How are they going to cope with even more Houses and people.

Behind our house on Pagham Rd we used to have Grade 1 farm land for crops and Food, That has now Gone.

Does no seam to be any environmental Consideration on any level to do with the developments.

The Fact that the Developments time and time again Disregard Planning Rules and do things on Developments that they have no Permission to Do. Which Paula Hilton is bringing to people's attention over issues in Summer Lane.

The Fact they are building on Flood plan areas and stop Water absorption in earth and run away.

" It is noted that SOS have clearly stated that the Migration for Brent Geese at the site has Failed. Arun DC against the wishes of the author chose Not to put this Report on the Portal even though it was sent to ADC in early July 2021, this has Delayed further Investigation by other Parties "

Hopefully common sense will prevail on all Developments.

Concerned Resident

Peter Batty.
