Dear Sir/Madam

Could you please in addition apply my objection against the following planning applications as the objection remains the same on all -

P/167/21/RES

P/155/21/RES

P/158/21/RES

I wish to object in the strongest possible terms to the above planning application, of homes behind the Village Hall.

There are so many reasons why further developments should not go ahead - lack of suitable infrastructure, lack amenities such as doctors/dentists but most importantly the flooding that already occurs in this flood zone area and then leading to excess sewage etc. Equally important is the proximity of the much-needed Nature Reserve. Wildlife (which should have the right to use this natural haven) is needed for biodiversity, which, remember benefits humans. Adequate additional building in the area is already going ahead, and there has to be a time when the decision is made that enough is enough. That time is now. I understand people need homes, but there has to be sensible limits on how many homes there can be in one area. The benefits of green space and natural woodlands can never be underestimated to the quality of life to *everyone* living in Pagham, both long-timers and those who wish to move here.

It is noted that SOS have clearly stated that the mitigation for the Brent geese at this site has failed. Arun DC, against the wishes of the author chose not to put this report on the portal even though it was sent to ADC in early July 2021, this has delayed further investigations by other parties.

Also, people are getting objection- weary as in the past few years there have been SO MANY applications over at least 4 sites, so even if you think the number of objections are falling, people still feel so strongly about the subject.

Please, just listen to us.

Yours faithfully
