Engineers Further Comments on Surface Water Drainage

The technical note responding to our comments which were provided on 14th December 21 does not address our comments. To be clear our comments detail the level of information which is required at this stage of the application. This information is required at this stage of the application to demonstrate that in principle a policy compliant surface water drainage design will be achievable within the proposed layout.

Providing high level responses which essentially state that information will be provided at DOC stage does not meet our requirements for this reserved matters application.

Please respond fully to our comments from the 14th December with calculations and high level drainage layouts.

Kind regards,

Laura Gibbons

Drainage Engineer

Engineering Services

Please note that I work Tuesdays 08:00-16:00 for Arun only.
