andP158/21/res. My name is Anthony Williams 8 Payne Close, Pagham PO21 4QA. My objection is infrastructure has not been addressed namely the sewerage cant cope when it rains it floods into the rife and on to the beaches the doctors are already unable to cope the main road out of Pagham is very bendy narrow and there are lots of accidents also there is a shortage of schooling I am a semi retired builder having over 62 yrs in the trade and we were always told to check the development would always fit in and not over load the system. I think it is a great shame that the developers only want to mass the area, it seems money is their goal. Those fields are very good arable land,we should be growing food not concreting over them. In time we will have food shortages and be reliant on Europe. What a shame as a council you don't care, when the next by-election comes look out we will vote against you.
