Subject: Planning application number objection P/153/21/RES

CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

Dear Sir/Madam

In addition to planning objection number P/153/21/RES could you please note my objection remains the same for all P167/21/RES, P/155//21/RES and P/158/21/RES.

My main concerns are the infrastructure. I work for a local GP surgery and we are unable to get enough GP's for the number of residents at present, where are all the extra GP's, teachers etc to come from? The local GP's, schools, hospitals will never cope with the influx of people, they struggle to cope at present.

The roads locally are terrible. I used to leave for work at 7.30am with next to nothing on the road now I am regularly stuck in traffic. The local roads just are not built for the amount of extra traffic from all the new estates being built.

The infrastructure is really just not in place for such mass scale developments making it absolute misery for the residents already living here.

There are already sewage and flooding in the local area which will only become worse.

It is noted that SOS (Sussex Ornithological Society) have clearly stated that the mitigation for the Brent Geese at this site has FAILED. Arun DC, against the wishes of the author chose NOT to put this report on the portal even though it was sent to ADC in early July 2021, this has delayed further investigations by other parties.

Please listen to our objections our beautiful countryside is being totally ruined and it is so terribly sad.

With kind regards

Mark and Cathy Howells
64 Pagham Road
