Dear Sir/Madam

I am writing to object to the planning P/153/21/RES

These developments will have a deplorable impact on the community, people's lives and has a total disrespect and disregard on the environment.

Why is this council seemingly hell bent on destroying this community, our precious green spaces, our precious nature and plunging us into a number of perilous situations.

The impact this is having on nature is horrendous in what is known as a Brent Geese migratory ground. How much longer will the council ignore our pleas to be heard and stop these relentless developments?

Our roads can't cope. Our hospitals can't cope. Our sewage system can't cope. Nature can't cope, we can't cope.
Please stop this madness.

It is noted that SOS (Sussex Ornithological Society) have clearly stated that the mitigation for the Brent Geese at this site has FAILED. Arun DC, against the wishes of the author chose NOT to put this report on the portal even though it was sent to ADC in early July 2021, this has delayed further investigations by other parties.

Please add my name to the following planning objections: P/167/21/RES, P/155/21/RES, P/158/21/RES
