Subject: P/153/21/RES

Good Evening,

I wish to lodge my formal objection to the above application.

Could you please in addition apply my objection against the following planning applications as the objection remains the same on all ... P/167/21/RES, P/155/21/RES and P/158/21/RES".

My objections are for the following reasons; insufficient infrastructure, increased traffic leading to increased nitrate levels. Pagham Road is not equipped to deal with increased demand. Insufficient provision for additional doctors, hospitals already overwhelmed, severe flooding risk due to coastal location and well documented environmental reports regarding this and lack of facilities to cope with sewage demand as already stated by Southern Water.

"It is noted that SOS (Sussex Ornithological Society) have clearly stated that the mitigation for the Brent Geese at this site has FAILED. Arun DC, against the wishes of the author chose NOT to put this report on the portal even though it was sent to ADC in early July 2021, this has delayed further investigations by other parties".

Kind regards,

Susan Wrake
