Hi Hebe

Hope you had a nice weekend.

With regard to the planning permission and on the basis of the feedback from the conservation officer, we would like to propose an amendment to our proposal.

As you can see from the new attached diagram, we propose the removal of the partitioning fence and the addition of Cliff fencing With bushes to match the right hand side entrance. Additionally, adding native species bushes along the rear fence line I haven't attached a link to an example of the native species mixed hedging that we would purchase. Hope this helps satisfy any concerns that the conservation Officer raised.

Should you need any further clarification or information please do let me know.

Many thanks in advance Steve
