Subject: Planning Objections

CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

My name is Christine Rowe and I live at
96 Pagham Road

Objection to Planning Application P/153/21/RES

Could you please apply in addition my objection against the following planning applications as the objection remains the same for all P/167/21/RES, P/155/21/RES and P/158/21/RES

More houses in Pagham mean more people increasing the workload on local doctors, one surgery not having enough doctors and one closed.

Our sewage farm cannot cope with all these extra houses, and has been known to dump raw sewage into the local watercourse which flows into Pagham Harbour

The road that leaves Pagham is unsuitable for all the extra cars which would be using it , making it more dangerous, we have experienced many accidents on this road which has resulted in it being closed and huge tailbacks developing.

The proposed development is too close to Pagham Harbour bird Sanctuary, and our storm drainage is inadequate and has overflowed and flooded in the past.

It is known that Sussex Ornithological Society have stated that the report on the Brent Geese at the site has failed . Arun DC have chosen NOT to put this report forward even though it was sent as early as July 2021, this has resulted in further investigation delays by other parties .
