Subject: South Pagham today

CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

How can you seriously consider building 350 houses adjoining this area. On February 2017, we wrote an objection to P/140/16Out and described the high risk of flooding in South Pagham. We have written on several further occasions again highlighting this risk. All ignored!!

We also have correspondence from Southern water in which they state that Pagham suffers from hydraulic overload.

You really Do need to listen!!!

Jane Weston
