Re Planning application P/178/21/OUT

17 FEB 2022

Dear Sir,

My wife and I are contacting you to inform you of our alarm at yet another request for planning permission in our area P/178/21/OUT . Much planning permission has already been given and the area is quickly becoming overcrowded with increased traffic and congestion, especially in the area near Tesco Express.

Furthermore, despite the large numbers of houses already completed and those in the process of construction, along with those in the pipe-line, there has not been any upgrading in the local facilities. This has caused a distinct lack of health provision, dentist and school places and will continue indefinitely if this planning application should be passed.

We strongly urge you not to give any more planning permission in this area.
