Subject: RE: P/178/21 land west of Pagham Road, Pagham

Dear Owen,

I am only permitted to seek/agree extensions of time in exceptional circumstances and this does not meet that criteria. Therefore, I will be aiming to determine it by the due date.

Kind Regards

Simon J Davis MRTPI

Dear Simon, I am writing following your email below and our telephone conversation on the 15th March 2022. We have this week received the Environment Agency's flood model and Brookbanks are currently reviewing this. Notwithstanding your email below, the Applicants would request an extension of time to the determination of

the application in order to properly investigate and respond to the point raised in the Environment Agency's representation. I would propose an extension until the 29th April 2022 in order to revert with a considered response on this point. I look forward to hearing from you. Kind regards, Owen

Subject: RE: P/178/21 land west of Pagham Road, Pagham

Dear Owen,

Thanks for your email and your persistence with the EA.

I have recently discussed this application with my Team Leader and Group Head of Planning and I'm afraid that it is one that we cannot support in principle. Despite the current housing land supply shortfall, we consider that the harm to the character of the countryside & strategic gap, loss of agriculture and biodiversity outweighs the benefits. It is my intention to issue a refusal before the 12/04/22 determination date. Any other issues outstanding at the time of the decision will also need to be weighed up in the overall balancing exercise.

Happy to discuss but I can't see any reason why we would change our position on this.

Kind Regards

I am writing in connection with the above planning application and following my email of the 11th February 2022.

You will be aware that we have submitted additional information to answer requests from the County Council as highway authority and the Council's Environmental Health Officer in respect of air quality.

We have also been seeking further information from the Environment Agency regarding their flood risk mapping: our consultants Brookbanks contacted them on the following dates: 3rd February 2020, 9th February 2022, 15th February 2022, 22nd February 2022 and the 1st March 2022. To date, we have not been provided with the information in order to respond to their consultation response and the matter you raised previously regarding the extent of development.

I would be grateful if we could arrange a convenient time to discuss the application during the course of the week.

Kind regards, Owen

Owen Jones
Director
