Subject: P/18/20/PL - Land west of Barton Manor, Manor Park, Pagham

Re: Application No: P/18/20/PL – Manor Park

Dear Sirs,

I should like to place on record my strong objection to the proposed development at Manor Park.

The properties are not at all compatible with the existing houses. They look and are totally incongruous and a verge is hardly a suitable place to build. I live in one of the apartments in Barton Manor, I find it totally unacceptable houses could even be *considered* being built so close to the Manor; literally within a few feet! The close proximity would have a detrimental effect on *at least* two apartments, mine being one of them, impeding and

reducing much of the daylight from entering and giving a claustrophobic atmosphere plus together with the black charred cladding, would be a very depressing outlook.

I thoroughly enjoy living here at Barton Manor, with its quiet and tranquil setting and a backdrop of Manor Parks' impressive array of trees, which host a wonderful variety of birds and seasonally, bats are often seen circling the area, feeding off the insects once dusk approaches and roosting in the trees. The noise pollution alone will completely destroy this. Dogs barking, music and general family activity to include shouting, banging doors etc not to mention the ongoing horrendous noise and disruption the actual build of 4 houses will create!

To conclude, the idea of erecting four completely out-of-character homes on a grass verge in an already crowded Close is, in my opinion, misconceived. Being a resident of Barton Manor, it will completely change my outlook on life and that's not for the better! Is this right?

Barbara Westwood

Apartment 4, Barton Manor
