Subject: Objection to Planning Application P/18/20/PL - Manor Park

Sara Rawlins

The Chapel, Barton Manor

I object to the Planning application Number P18/20/PL for the following reasons. The Architect has knowingly misdescribed the verge, which he wishes to build on, since cutting down a large number of mature trees on that site without permission. In effect, his photographic and written descriptions of the site are completely misleading and incorrect as is his Planning Application in general. With regards to the type of houses he anticipates building; he is confusing *anyone* who has an opinion on this matter. I refer to the Drainage Statement and Bin Storage Statement in the Planning Application, whereby the Architect describes, what is clearly a terrace block of modern and simplistic houses as '*Detached Houses*'. The Application needs to be accurate for there to be a balanced opinion from objectors.

I strongly believe the criminal act of cutting down the trees needs to be fully investigated and corrected prior to the application being heard, utilising accurate information

only. Highways/Arun have a legal and professional responsibility to rectify the illegal tree felling to ensure the public are fully aware of how the site was and should be for the future, prior to debating whether houses should be built at all. How can the public be expected to give a balanced and accurate opinion on this matter when the Architect has moved the goalposts? His Application shows a full complement of 21 trees which no longer exist.
