Re P18/20/PL

Dear Sir,

We wish to make a formal
objection to the proposed above
development.

We have lived here for 50 years
and when we bought the
property we were assured that
a covenant was in place to
ensure the said piece of land
was to remain an amenity area
with no further development
on the estate, currently 38 properties.

2

This application, if agreed, would also affect the setting of BARTON MANOR, a listed building, & understood to be one of the oldest in ENGLAND. An entry can be seen in the DOOMSDAY BOOK to confirm the date.

My children, grand-children and neighbours children have all used this amenity ever and are still so doing.

Along with the building of hundreds of houses in the PARKHALL area, which I appreciate is under the direction of central Government, is there need for just a move

3

houses?

As I have already stated this proposed development would not only affect the setting of a historical listed building, but the lives of 38 residents, the majority of which have lived here for a great number of years.

As you are no doubt aware the proposed developer has illegally cut down 6 trees which were planted some 50 years ago, absolute sacrilege.

Yours faithfully,
