16th April 2020

Dear Sir/Madam

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015

Change of use from highway land to residential use for the development of 4 No. 3 bed terraced houses with associated parking & access. This application affects the setting of a listed building.

Land west of Barton House Manor Park Pagham

Thank you for your internet representation made on 15th April 2020 which has been recorded as '**an objection**' with the comments as follows:

The site plan defies belief, directly opposite home owners in Manor Pk. and behind one of the oldest properties in Pagham, Barton Manor. To consider dessicating this land for pure profit (clearly a developer has bought the verge at an auction and decided to chance their arm via a architect to try and force this ridiculous concept through ADC's planning department)

I object to this in the strongest manner, children who play on this verge safely in front of their homes will no longer have a 'green space' and it would be a blot on the landscape as it was never supposed to be for properties and would make the parking and access more difficult

Any new builds also fall under the following more generic objection clauses being raised by many local residents in this area :-

1)ADC's own Local Plan states that major developments must provide 10% of the total predicted energy generation on site using solar panels, air or other alternative heat pumps etc. UNLESS the developers state that it is unviable. The Committee for Climate Change that advises the Government have stated that by 2025 at the latest, no new homes should connect to the gas grid but instead use alternative heating methods. They stated it would cost approx. £4800 to add heat pumps to a new build but £26300 retrofitting (the owners footing the bill) This is unacceptable, the builders are via ADC passing the buck to the new home owners. UNACCEPTABLE

2)The Additional building and population will increase Flood risk and dangers to the community - this cannot be supported with the meagre new flood provisions being proposed - Taylor Wimpey are trying to mitigate the flooding we are all so conscious of by constructing very large cascaded balancing ponds at the bottom of the development behind Gills Flowers/The Coop in Rose Green Rd. where it is at its most severe. This ultimately would be pumped into the Rife which will have to accommodate the Chichester Relief Channel, the new site of 40 properties behind the Bear, the proposed 90 homes in Summer Lane, the proposed 300 + homes at Hook Lane, then 450 + homes at Pagham Rd., and the 2700 + homes proposed at Chalcraft Lane, all destined to dump their gray water (non sewage) but NITRATE loaded with no chance of this being filtered out. Southern Waters latest report states that the Pagham Rife will remain at a chemical FAIL

status for at least the next 10 years. - UNACCEPTABLE

3)The condition and suitability of the lower Pagham Rd. is totally unacceptable and far too narrow to accomodate the new proposed consolidated building work and additional population in the Pagham area - Much improved an larger access roads would be needed to support this traffic and population or gridlock would occur all the time - UNACCEPTABLE

Unfortunately it is not possible for the council to respond to each representation individually but your views will be considered before the application is determined and I shall write to inform you of any decision made.

If the application is to be determined at the Development Control Committee and your letter has been received after the agenda has been published, you will not receive a separate letter notifying you of the date of the meeting and the procedures for public speaking. In such circumstances, it is recommended that you track the progress of the application on the website or telephone for further information. Please be advised that any comments received after the the Development Control Agenda has been produced will be reported to the meeting. Please also note that only a small number of all planning applications are determined at the Development Control Committee, most are determined by officers under delegated power.

All representations are published on our website so please make sure your views are clear and only include information that you are happy for the public to view. Do not include personal information or information from third parties unless you have their permission to do so. If a complaint is received that permission has not been given for comments included about a third party, the Council reserves the right to redact/remove all relevant information. Do not include information that is defamatory or breaches equality or other legislation. If you do not wish your comments to appear on the website and on the file, please confirm this in writing and I will arrange for it to be destroyed, although this does mean that its contents will be disregarded. For details of what we do with your personal information please refer to our privacy statement comments on planning applications which is available on our website www.arun.gov.uk/planning-privacy-statements.

In the event of a subsequent written representations appeal, against a refusal of planning permission on a householder application, any representations made on the application will be automatically forwarded to the Secretary of State. Unlike all other types of appeal, there will be no further opportunity to comment at the appeal stage.

Yours faithfully

Neil Crowther
Group Head of Planning
