Land North of Sefter Road & 80 Rose Green Road Pagham

Thank you for your internet representation made on 28th April 2020 which has been recorded as '**an objection**' with the comments as follows:

I confirm that I strongly object to this application.

Sefter Road has serious flooding issues which continue to severely impact the B2166 Pagham Road. This is getting progressively worse outside the Barfoots site and down towards the Royal Oak Pub.

Replacing agricultural land with concrete is asking for trouble in respect of drainage. It is beyond me that further housing in this area is even being considered. I suspect that by the time the Hook Lane site has been built on, Sefter Road and the B2166 will become even more regularly impassable due to flood water so I trust mitigation is already being planned to deal with this potential nightmare?

The junction from the end of Sefter Road to the B2166 is dangerous due to the poor visibility to the left where a bend in the road obscures the view of oncoming traffic.

Another point of note is the number of agricultural workers accessing the Barfoots site and other local businesses on foot along Sefter Road. I have seen near misses on several occasions along Sefter Road and at its junction with the B2166 with pedestrians walking in the road which is unlit, is often deep with flood water and has no pavements. The increased traffic from this and other proposed developments in Pagham is likely to further the probability of a tragedy on our doorsteps.

Unfortunately it is not possible for the council to respond to each representation individually but your views will be considered before the application is determined and I shall write to inform you of any decision made.
