Thank you for your internet representation made on 20th May 2020 which has been recorded as an objection with the comments as follows:

OWPC27014

I write to strongly object to the planned building of 280 houses on Sefta Field at the rear of my property. I feel that the land is unsuitable due to risk of flooding. This is a coastal plain, the land is flat and prone to severe flooding, as we saw last winter when one corner of the field turned into a lake.

Climate change is happening quickly now, sea levels are rising resulting in in terrible flooding. Our back garden was completely flooded for a couple of weeks at one point. Obviously building houses will worsen the situation.

Another reason why this housing development shouldn't go ahead is because of the over crowding it would cause to the village. There is no infrastructure in place to deal with an influx of 280 families to the area. Increased vehicle movement would bring about chaos on the local highways network, which would be very dangerous.

I really hope you will see that this housing should not go ahead.

Thank you
Kind regards
Annette Priddy
