It is absurd why anyone would want to build on a space that, in March 2019, flooded to the point that you could sail a boat across the field!! This is just one example of when that field has flooded. No consideration has been given to the traffic flow in and out of the village. Even today, with Covid-19 restrictions, there is still a steady stream of cars in and out of the village via the one main road out onto the A27. Adding 3000 homes will potentially mean AT LEAST 3000 cars (most likely more as the majority of households will potentially have more than 1 car). There is no feasible way for the already heavily congested roads to cope with this. Other developments in the area have already been rejected, this one is the worst yet. There are not the public facilities to cope with this. Unless new roads to access Pagham are built, this development will only ruin our beautiful, historical village and surrounding lands, but cause dangerous levels of traffic and POLLUTION that are not acceptable.

Your views as made above will be considered before the application is determined.
