Thank you for your internet representation made on 21st May 2020 which has been recorded as an objection with the comments as follows:

OWPC27057

I object to this application for the following reasons. We have already seen the amount of flooding that there has been across the country and this propose site already floods, the developer is proposing to push this into already laden waterways, which in turn can cause more flooding. Also the wildlife that we all love living with is having more space eaten into and the loss of the arable land at a time when we need to rely on our own food stocks in this country. The roads are not adequate for the extra traffic, we do not have the amenities, doctors surgeries, schools, dentists to cope with the extra pressure that this development would cause. Where is the sustainability in this development? Developers seem to pay lip service to eco friendly with a few bird boxes and a wood pile, then sit back and reap the rewards while someone else pays the price.

Your views as made above will be considered before the application is determined.
